

It's OK (Please Just Say): Song and Video Project

Step 6

In this step you will be working towards your video performance. You will probably have a clear idea of what and how you wish to present this, but consider the importance of the journey. You may want to include snippets of today's final rehearsals as part of the video.

Rehearse the individual parts of the performance – this might include the song or signed song, the instrumental parts, your words and the poem or verse. Remember to feature the sock puppets!

Once ready, run the complete performance.

If possible share this with other classes as a live performance or on video, using it as an opportunity for your students to talk with others about how they feel during this time.
